Revision History

<u>Date</u>	<u>Version</u>	<u>Description</u>	<u>Author</u>
9/23/2006		Per the September DA/IT-MCIS meeting: Additions have been made to the documents addressing the allowable “blank & zero” issue as discussed.	Nancy Richard
10/4/2006		Modified DSM fields – DSM fields will only be edited for valid DSM codes if there are data in the field	Nancy Richard
12/21/2006		Added the following to DSM IV AXIS I & II: must be left-adjusted and padded with blanks	Nancy Richard
5/25/2007	4.0	Added the revision history page and included the Version number in the name of the document	Nancy Richard
7/13/2007	5.0	Per Enhancement Request #19666: Added new cost center = 73 Second Spring, new Primary Program Assignment = 13 CFC Elder Services, and new Program of Service = 13 CFC Elder Services. Added required/not required info for the new Program	Nancy Richard
7/30/2007	6.0	Per Enhancement Request #19747: Removed middle initial requirement from all Primary Programs, last name requirement for ADAP. #19902: Removed the Primary Program Assignment 13=CFC & Program of Service 13=CFC. Added Cost Center 74=Choices of Care, & Responsible for Fee-Primary Payer =74 Choices of Care.	Nancy Richard
8/10/2007	7.0	Per defect #20234: updated Town Code to be required by all primary programs. It is not a critical field.	Nancy Richard
8/22/2007	8.0	Updated the footer of the document to reflect its location on the ITS intranet. It was previously referencing it's ClearQuest location.	Paul Pratt
8/30/2007	9.0	Per defect #20421 – update client name, modifier, ssn, date of death, street address 1 & 2, city, state, zip code fields with “not state-funded” specs	Nancy Richard
9/24/2007	10.0	Per Enhancement Request #20621: Added 74 = Choices of Care to Responsible for Fee-Second Payer and to Responsible for Fee-Third Payer	Nancy Richard
10/15/2007	11.0	Per Enhancement Request #20932: Updated the name fields with regard to C&E recipient information Per Enhancement Request #20956: Removed DA 22=Transition II and 36=VSL from the valid Provider_ID list	Nancy Richard
10/22/2007	12.0	Per Enhancement Request #21017: Added Updates to DSM codes will be obtained by periodic extracts from PsychConsult to all DSM fields	Nancy Richard
		01/08/07 – Updated many of the edit checks to be more flexible on default values. All fields, including those checked as “CRT Reject” will be edited, but only the errors detected within the	
10/30/2007	13.0	Per Defect #21029 – Correct C&E required and critical check marks. Per discussion with Amy then Ed, removed all yellow high-lighting.	Nancy Richard
1/15/2008	14.0	<p>Per Base Activity #22205 which compiled numerous outstanding document modifications as follow:</p> <p>(Task 21134) – During the MSR Autoload workgroup meeting, it was confirmed that Axis V, GAF score should have an edit that enforces valid values are 1-99 with 0 representing no information. Axis V, GAF Scores (Client Record Line 2, Column 25-26 and 30-31.</p> <p>(Task 21784) – Per Alice Maynard, the Family ID field is no longer used and can be removed from the Display Client Data function. It can also be removed from the MSR submission specs as agencies are no longer sending it. Please leave the row for this field and indicate that it is “reserved for future use”. – Used the expression “NOT BEING USED” instead in order to be consistent with other unused fields.</p>	Nancy Richard

Definitions, Edit Criteria, and Business Rules

		<p>(Task 22077) – According to Tim (NE) they’ve got allot of Primary Program Assignment (PPA)=11(kids) records that are generating non-critical errors with regard to the 2nd & 3rd Responsible for Fee fields. NE is sending 00 in those fields because there is no 2nd or 3rd Responsible for Fee data. According to the October 30th Edits document, pages 9 & 10 both fields state: “...or there is not a 2nd or 3rd payer, it can also be blank or zero” – please change this to 00.</p> <p>(Task 22082) – Add a non-critical edit for the Primary Program Assignment Dates as follows: The PPA End Date (line 6, Col 57-64) must be equal to or greater than the PPA Effective Date (line 6, Col 49-56).</p> <p>(Task 22084) – On the client record, in the Source of Referral field (line2, column 60-61) change the description of code 26 “Institution for retarded” to “Developmental Services Facility/Institution”.</p> <p>(Task 18333) – On page 13 of the document last updated April 16, 2007 REMOVE: (Some DAs always use the fiscal year begin date here instead of the sequential date) FROM: the Edit column for Column Name = Begin date of report. Health Care & Rehabilitative Services of Vermont is the DA that used fiscal year consistently. I’ve spoken with Warren Sergeant there and he said there wasn’t a problem for him to conform.</p> <p>(Task 18867) – Per the May DA IT Directors meeting in Randolph, the following changes need to be made to the MSR submissions prior to July 1st These changes really only affect those DAs that are submitting ADAP data via the MSR (UCS and Rutland). I have outlined the changes below and have received program approval from MH and ADAP. From the MSR Document, Service Record Line 1, Column 35-35: ADAP Billable From the SATIS Document, #28: Payment Responsibility We currently have this defined as:1=Yes, 2=No We need to make a change to collect: A = Blue Cross/Blue Shield B = Private Insurance C = State (ADAP) D = Medicaid/Medicaid & VHAP E = Private Contract F = Corrections Contract G = SRS Contract H = School Contract I = Unknown From the MSR Document: Client Record Line 4, Columns 1-1 and 6-6 Number of Arrests at Intake and Number of Arrests at Discharge From the SATIS Document #36: Client Functioning We currently have this defined as: 0-9 We need to make a change to collect: 0-8</p> <p>(Task 21130) – Per the MSR Autoload Workgroup meeting, the modifier field is really the client name suffix. Please add to the description of the field so that is clear.</p> <p>(Task 21140) – ITS proposed a new ‘Primary Program Assignment’ code for C&E Recipients (13). This will be used in editing data regarding C&E Recipients in order to strip out the names. Please update the MSR Specifications by adding a value to the PPA field (13 for C&E) and removing C&E from value 99. I believe that the PPA column in the document is still accurate. Also, the document needs to be changed for</p>

		<p>Zip Code (Line 5 cols 66-74) because now it is required for state funded and non-state funded.</p> <p>(Task 21221) – Field: REFERRAL UPON DISCONTINUATION: Please mark an X for the following programs: CRT, MH-Kids MH_Adults Field: ACCOUNT NUMBER: Please mark an X for the following program: DS</p> <p>(Task 21225) – Field: CLIENT PAYMENT RESPONSIBILITY 98=100%: Please mark an X for the following programs: MH-Kids, MH_Adults AND – add “(Not State Funded)” to the description</p> <p>(Task 21227) – Please modify the description for the following fields: DSM-IV Axis I Primary DSM-IV Axis I Secondary DSM-IV Axis II Primary DSM-IV Axis II Secondary To say: “Must be left-adjusted and right-padded with blanks.”</p> <p>(Task 21594) – In light of the new edit for Non- State Funded clients, it was determined that the Responsible for Fee – Primary field (Client Record, Line 1, Columns 30-31) should be a critical required field. This is the case for DS, ADAP, MH-KIDS, MH-ADULTS and CRT programs. Also, the DCF column can be removed from the document.</p>	
1/16/08	15.0	Task #22276 – Update Revision History, add Processing notes	Nancy Richard

Definitions, Edit Criteria, and Business Rules

		Secondary problem frequency of use at discharge Tertiary problem frequency of use at discharge	
6/5/2008	22.0	Enhancement #24193 – Remove DS-specific info from Diagnosis Axis I & II fields	Nancy Richard
7/24/2008	23.0	<p>Defect #24383 – modified the description for the field, Date of Most Recent Review.</p> <p>Defect #24781 – corrected the 1-digit options listed in the Edits column to be 2-digits with leading zeros. Added 2 new BLANK fields to define 2 missing positions in line 2 of the Client record.</p> <p>Additionally, all fields with the description “Not Being Used” have been given “Blank” as their column name instead of leaving outdated information as the column name.</p> <p>Specifically, in the Client Record, I replaced: Line 2, 32-32’s column name, “Client Status” with “Blank” Line 2, 36-40’s column name, “Statewide MH/DS patient/client identifier” with “Blank” Line 2, 46-46’s column name, “ADAP Transfer” with “Blank”</p> <p>And, in the Service Record, I consolidated Blank columns 41-42 and 43-49 into a single Blank field as columns 41-49 since they were next to each other and I replaced the outdated column names: in positions 41-42’s “Total number of individuals seen in each direct family contact” with “Blank” in positions 43-49’s column name, “Family ID #” with “Blank”</p> <p>By doing this, the document handles empty fields consistently and can more efficiently aids in knowing what space is available, should the need arise to add additional data elements.</p>	Nancy Richard

Introduction

This document contains all data elements that make up the dataset for the MSR submission. Each data field is listed in the Table of Contents by its relative position in the dataset, along with its name, description, the edit criteria applied, and an indicator specifying which programs require the field.

When this data is submitted to the Health Department by the Designated Agency, it will be detected and edited through an automated process. The completed editing process will generate error reports and a notice to the Designated Agency informing them the editing is complete, and stating whether the data was accepted.

Two error reports will be generated and placed in the secure FTP site. The first contains critical errors that resulted in the file being rejected and non-critical errors that should be corrected for subsequent submissions. The second report contains those records that were flagged as rejected.

The following conditions apply to all records, and describe the minimum acceptable dataset for a specific client. Failure to comply with these criteria will result in a rejected data file.

NOTE: See the 'Processing Notes' for further explanation regarding acceptance or rejection of MSR Submission files.

All records must contain these data elements except in the two listed, specified exception scenarios.

Data Default Values

Required for ALL CLIENT RECORDS unless the data falls into one of the 2 exception categories:

Record ID

Client ID

Provider ID

Start Date of Report

End Date of Report

DOB – For those programs where the DOB is required, in <1% of the cases, the DOB is either unavailable or not provided by the patient. In those instances, the Year of Birth will be set to 01/01/1900, resulting in the DOB field having a value of 000101 (yyymmdd)

Gender

Name Fragment

SSN – For those programs where the SSN is required, in <1% of the cases the SSN is either unavailable or not provided by the patient. In those instances, the SSN is to be coded as 999999999

SSN Suffix - For those programs where the SSN is required, in <1% of the cases the SSN Suffix is either unavailable or not provided by the patient. In those instances, the SSN Suffix is to be coded as 9999

Birth Year Prefix – Refer to the above note for DOB. If the DOB is unavailable or not provided and the DOB has been set to 000101, then the Birth Year Prefix will have a value of 19

Primary Program Assignment**Special Note for ADAP Submissions**

ADAP Information – Only those DA's who submit ADAP data using the MSR dataset will have their data edited according to the specifications. All other DA's will need to follow the same coding structure, except blanks and zeros will be accepted for all ADAP related fields. The providers who currently submit ADAP data using the dataset are 08, Rutland Mental Health (RMH) and 09, United Counseling Services (UCS).

Data Exceptions for Client Record

Data Exception 1: If the Primary Program Assignment is '09' (Emergency) required fields are:

Client ID

Provider ID

Record ID

Start Date of Report

End Date of Report

Data Exception 2: If the Primary Program Assignment is '13' (C&E Recipient) required fields are:

Client ID

Provider ID

Record ID

Start Date of Report

End Date of Report

C&E Recipient Type

General Note: If a field is required, or is provided, then it will be edited to ensure that it meets the criteria established within this document. If a field is not required, and it is not provided, blank, and in most cases, a zero is acceptable.

Definition of State Funded versus Non-State Funded

1 – If the 'Client Payment Responsibility' (Client Record, Line 1, Column 27-28) is '98', the client is considered NOT STATE FUNDED and the applicable fields listed below are NOT REQUIRED. If any other value is sent for Client Payment Responsibility, the funding is determined as follows:

2 – If the following values are sent for any of the three 'Responsible for Fee' fields (Client Record, Line 1, Columns 30-31, 32-33, 34-35), the client is considered STATE FUNDED. Otherwise, the client is considered NOT STATE FUNDED.

Town Code	Client Record, Line 5, Columns 75-77

File-Naming Conventions

MSR Data Submission files are to be named using the following format: ccyyymmms.dat

Where cc is the 2 letter clinic identifier, yy is the 2 digit calendar year, mm is the 2 digit month

An example would be: Northeast Kingdom Human Health Service submission for March 2008:
NE0803ms.dat

File Locations

DAs send, “upload” their files via the top right pane of: <https://webmail.vdh.state.vt.us/upload/> and those uploaded files go to: [\\ddmhs-net\dataupload](https://ddmhs-net\dataupload).

Mental Health and ITS send, “download” files to the DAs via the bottom pane of <https://webmail.vdh.state.vt.us/upload/> and those files go to: [\\ddmhs-net\MCISDATA\Download](https://ddmhs-net/MCISDATA/Download).

Processing Notes

The following table lists and defines all possible data elements by record type, including line and column position, within the MSR Submission file. Columns ‘Critical, DS, CRT, ADAP, EMERGENCY, MH-KIDS, MH-ADULTS and C&E RECIP’ are used to indicate fields required by specific Vermont Department of Health (VDH) programs and whether or not submission of that data is critical to the program.

An ‘X’ in a program column indicates that valid data must be sent in that field. An ‘X’ in the ‘Critical’ column indicates that if valid data is not sent in that field, the entire MSR submission file will be rejected and a report indicating both critical and non-critical errors will be generated, placed in the Designated Agency’s (DA) download folder, and the DA will be notified via e-mail.

If there is not an ‘X’ in a program column but data is sent, the data will be validity-checked and if invalid data exists, the MSR submission file will be loaded into the VDH database with the invalid data changed to blank or zero as appropriate. A report indicating non-critical errors will be generated, placed in the Designated Agency’s (DA) download folder, and the DA will be notified via e-mail.

Definitions, Edit Criteria, and Business Rules

There are a few instances where individual records will be rejected and written into a 'reject table' instead of rejecting the entire MSR submission. A report indicating rejected records will be generated, placed in the Designated Agency's (DA) download folder, and the DA will be notified via e-mail.

Examples follow:

- When more than a single matching record is found in the VDH database for a single Provider ID / Client_ID, combination.
- When more than a single matching record is found in the VDH database for a single Date of Birth / Social Security Number combination.
- When more than a single matching record is found in the VDH database for a single C&E Recipient (organization).

Homeless - If a client is homeless, the "Residential Arrangement at Intake" field, line 2, columns 62-63, must contain code "11" indicating "On the street or in a shelter for the homeless", even though the "Residential Arrangement at Intake" field is not a "critical" edit field. If the "Residential Arrangement at Intake" field does not contain an "11", when "critical" edits are run against field "Street Address 1", line 5, columns 1-24, "City", line 5, columns 49-63, and "State", line 5, columns 64-65 fields, and finds any one of them to contain "Blanks, since homeless clients are always state-funded, a critical error will generate, and the entire submission file will be rejected.

The file is checked for duplicate client ids, if duplicates are found the file will be rejected. The duplicates are defined as records within the submission file that have the same client id but other identifying information fields (SSN, SSN Suffix, Gender, Names, name fragment and Date of Birth) are different. Records with matching client id and identifying fields are deemed OK if they adhere to one of the following cases:

- If the PPA is the same, but one has a close date and one does not
- If the PPA is the same, but open and close dates are different
- If the PPA is the same, both closed dates cannot be blank
- If primary program assignment values are different

When submitting a service for deletion using Action Code D (Service Record, Line 1, Col 2-2), the following fields submitted for the service with the D code must exactly match those submitted for the original service: (ServiceDate, Duration, CostCenter, TypeCode, LocationCode, BillADAP, StaffID, HIVInfo, AccountID, Reference Number). If the fields do not match, the service with the D code will be rejected and the original service will remain intact.
